Mr. Harry Fitzwater  
Washington, DC 20305

SUBJECT: Nearterm Polygraph Schedule Appointments

1. As you are aware, IOC for DIAs SAFE early capability is now scheduled for 27 June 1983. Our main area of concern from a users point of view has been and continues to be our ability to provide support to the analysts using the system. In this regard your staff, namely [redacted] and his organization have been most cooperative and helpful in providing initial training to several of our Customer Support Group (CSG) personnel. He has provided this support during a very trying time frame, namely, your IOC period and we are most appreciative. [redacted] has also committed his organization to provide on the job training support for the remainder of our CSG personnel.

2. Our implementation strategy has been based on the assumption that we would have a viable CSG in place on day one of SAFE early capability operation. This is mandatory to gain analyst acceptance by providing a team of experienced support people that can teach him to use the system to produce better more timely intelligence as well as providing a viable interface to our ADP organization. Presently of our three remaining CSG personnel, one is scheduled to take the polygraph 17 May and two others are scheduled during the first week in July (1 and 5 July). If this schedule could be accelerated so that the polygraph is given this month, we could avail ourselves to [redacted] training during May and early June and have a viable CSG in place by IOC on 27 June. Any assistance you can give us in this regard would be most helpful towards insuring we successfully meet the 27 June IOC.
